01 PROFILE

Web developer with experience in building complete warehouse systems for international companies.

02 EMPLOYMENT HISTORY

06/2024 — Present

IT Specialist at Panasia Polska
Warszawa

- Basic experience with setting up company networks (routers, access points, IP configuration).
- Managing the B2B online store using HTML and CSS (adding sections, banners, text).
- Working as a link between the system provider and employees, reporting issues clearly and helping solve system problems.
- Helping employees with all basic IT issues, such as computer, network, or software problems, and fixing simple issues in the company system.

03/2024 — Present

Programming Teacher (part-time) at Giganci Programowania
Warszawa

- Creating my own lesson plans for individual and group classes.
- Teaching C# basics such as loops, functions, and classes.
- Helping students build small 2D games in Windows Forms using events and timers.
- Supporting long-term projects (2–3 lessons + home work) and guiding students step by step.
- Experience working with advanced students, including teaching basic C++.
- Helping students improve logical thinking and problem solving.

02/2023 — Present

Frontend Developer (part-time) at Stroyec
Kraków

- Working with REST API independently.
- Building tables with pagination, filters, and sorting.
- Using Git professionally (branches, pull requests).
- Designing the whole frontend architecture and component structure.
- Creating complex forms with validation and many fields.
- Optimizing performance (reducing repeated renders, using localStorage, loading only needed data).

- Creating the whole UI in styled-components (no UI libraries) and preparing interface designs in Figma.

| 06/2023 — 03/2024 | **IT Specialist at LG CNS** | *Wrocław* |

- Creating desktop apps with multiple forms and Excel export.
- Building installers for Windows Forms applications.
- Automating financial and administrative processes (reports, monthly summaries, document generation).
- Creating tools that reduced work time from hours to minutes.
- Helping with tasks in jira, including writing tasks, testing, and accepting changes.

03 EDUCATION

| Oct 2019 — Jun 2024 | **SWPS University** | *Wrocław* |
